

15 February 2024

Dear JUPAS Applicants,

**Revision of Programme Entrance Requirement for  
Bachelor of Science in Interdisciplinary Data Analytics and X Double Major Programme (JS4760)  
for the 2024/25 intake**

I am pleased to inform you that the University has recently approved the revision of programme entrance requirement for the Bachelor of Science in Interdisciplinary Data Analytics and X Double Major Programme (IDADM) (JS4760) for the 2024/25 intake:

Programme	Original	REVISED
	Programme Entrance Requirement	Programme Entrance Requirement
JS4760 IDADM	Applicants must obtain Level 2 or above in Mathematics (Compulsory Part)	Applicants must obtain <u>Level 3 or above</u> in Mathematics (Compulsory Part)

The IDADM is a comprehensive Collaborative Double Major Programme jointly offered by The Chinese University of Hong Kong (CUHK) and The Chinese University of Hong Kong (Shenzhen) (CUHK (SZ)). Students will pursue a first Major in Interdisciplinary Data Analytics offered by CUHK, and a second Major among specific academic disciplines (Business, Engineering and Science) offered by either CUHK or CUHK (SZ). This programme requires students who have sound mathematical knowledge and are able to apply critical and logical thinking skills in learning and research activities. It is ideally suited for students interested in pursuing a career in leading national organisations and multi-national enterprises committed to developing markets in the Greater Bay Area or Mainland China. Please visit the programme website at: <https://admission.cuhk.edu.hk/dmp> for detailed information.

In this regard, special arrangements have been made with the JUPAS Office, with a view to allowing applicants to update their programme choices free-of-charge (for one submission only) via their JUPAS online application accounts during a stipulated period.

Yours faithfully,

Professor Andy Wong  
Director of Admissions and Financial Aid
